

AK Anchorage International Airport

IMPORTANT NOTE: A problem has been detected with CLIMVIS National Weather Service Summary of the day data in months where there are any missing daily data reports. If CLIMVIS reports no data on the last day of the month, then all data in the month should be considered suspect. The [Global Summary of the Day](#) system can be queried for an alternate source for some of this data (the times in this database may vary slightly from National Weather Service Summary of the Day due to the times of observation). To retrieve complete datafiles for these data, go to [NNDC Climate Data Online System](#)

We apologize for the inconvenience and are working hard to resolve this problem as soon as possible
